

# COMPUTER VISION

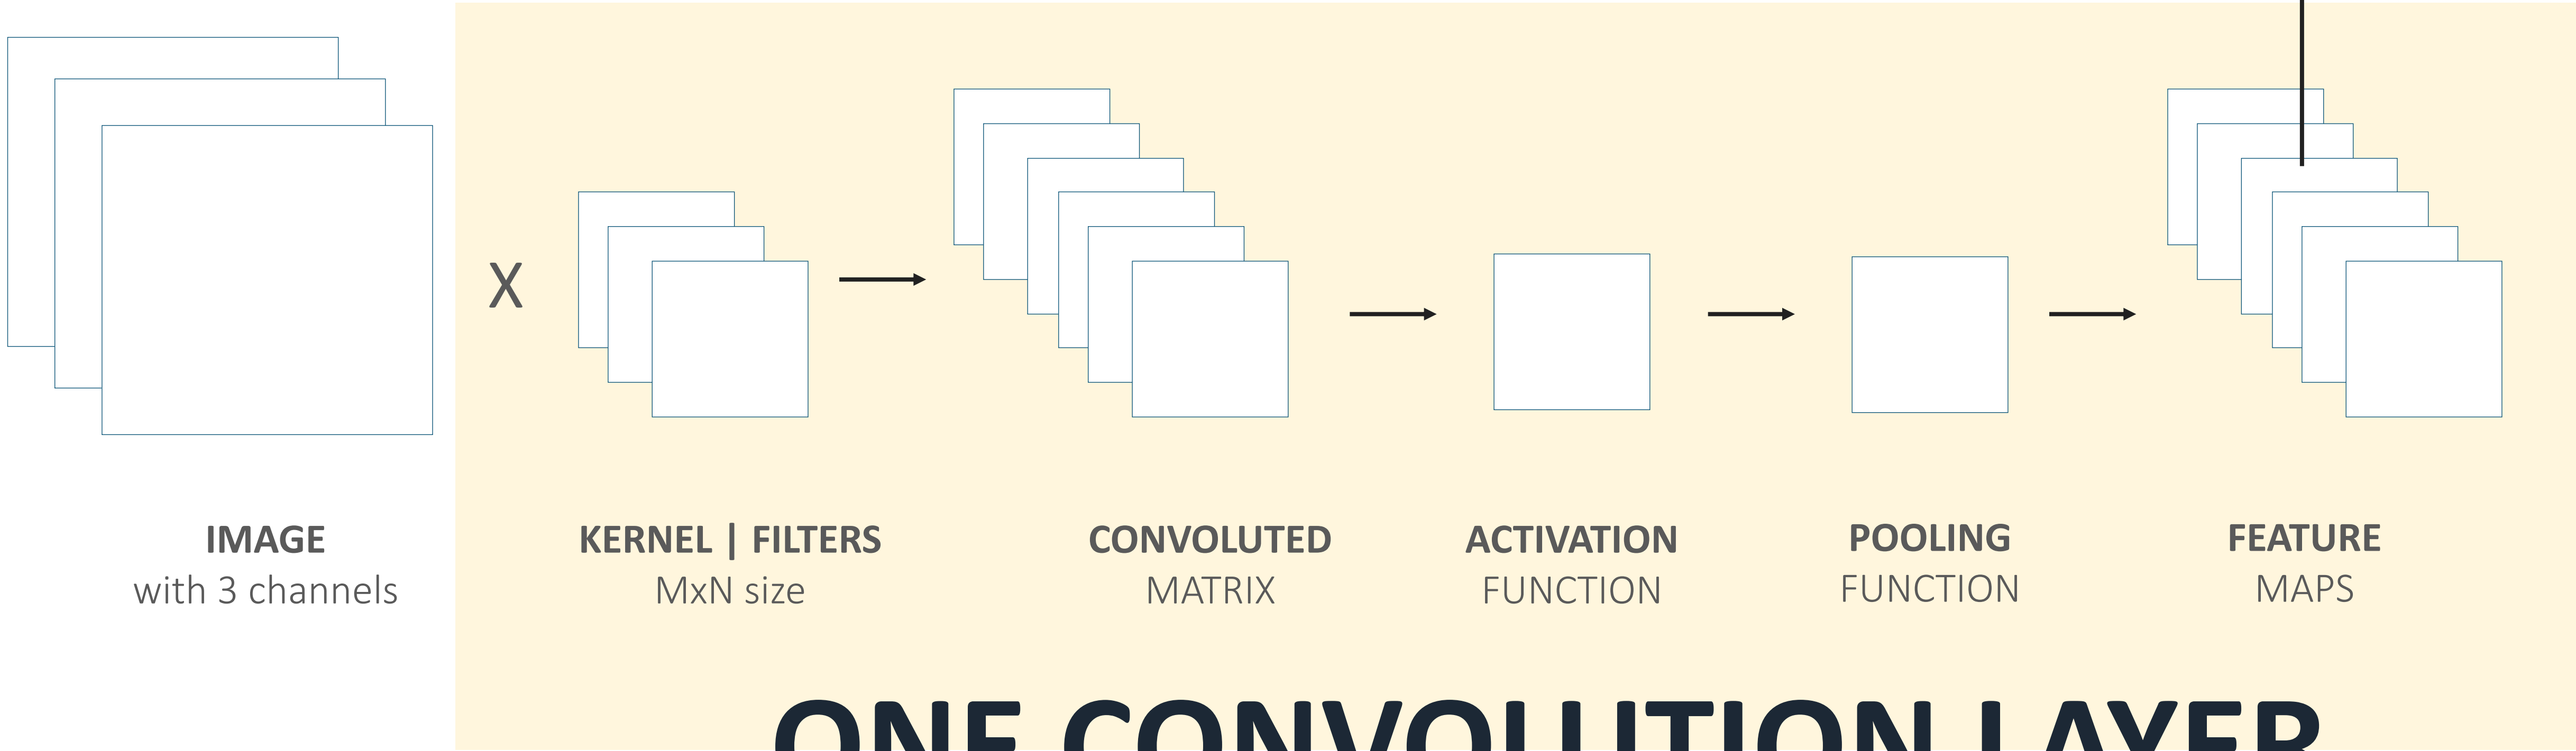

## CONVOLUTION ON IMAGES

# AGENDA

This video lecture focuses on understanding how to assemble and design a complete convolution neural networks

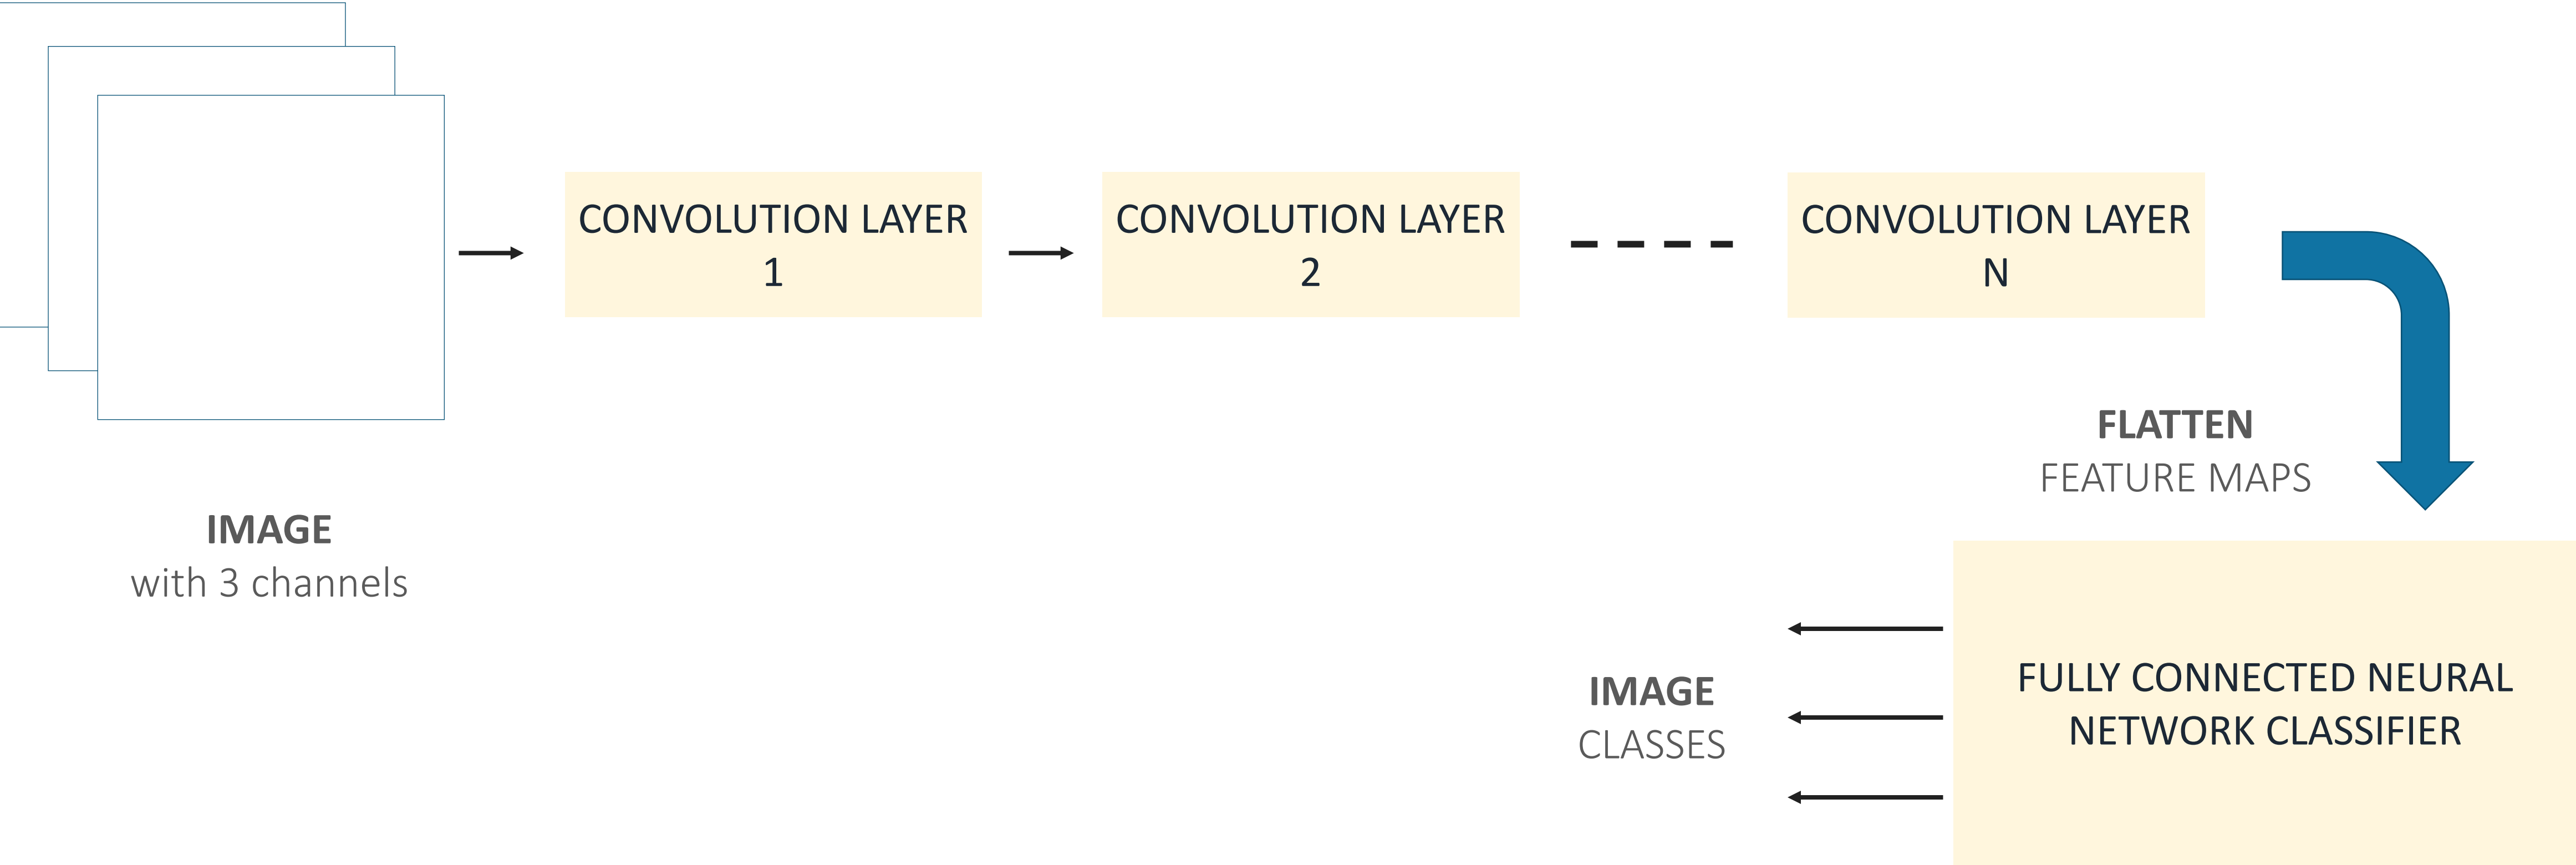

# Simple handmade CNN

Feature maps are convoluted with kernels or filters further in the network

# Simple handmade CNN

Sunil sir: Explain a forward propagation + backward propagation

# SUMMARY

## “FEATURE EXTRACTION”

Convolution neural networks helps to extract features from the images leading to a better learning on for image classification

# COMPUTER VISION

## CONVOLUTION ON IMAGES
